

CERTIFICATION R97-07/003

MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY
GENERAL RULE 97 CERTIFICATION OF APPROVAL
AUTHORIZING BACTERIAL AUGMENTATION
IN SURFACE WATERS

In compliance with the provisions of Part 31, Water Resources Protection, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451), and R 323.1097 promulgated there under, certain bacterial augmentation products are authorized to be applied to surface waters of the state generally to control sludge/muck build-up, nutrients, and/or odor by individuals submitting a complete Notification of Intent to treat under this certification. The Notification of Intent and instructions for its submittal are available from the Michigan Department of Environmental Quality (MDEQ), Water Bureau, or from the Web site at www.michigan.gov/deq utilizing the MDEQ Site Map. This certification does not authorize any of the following:

- a) The application of bacterial augmentation products other than those previously reviewed and listed as approvable on the Acceptable Michigan Bacterial Augmentation Products list available at www.michigan.gov/deq.
- b) The application of bacterial augmentation products to surface waters of the state containing state or federal endangered or threatened species pursuant to Part 365, Endangered Species Protection, of Act 451. Information on endangered and threatened species is available at <http://web4.msue.msu.edu/mnfi/>.
- c) The application of bacterial augmentation products to waters in a wastewater treatment system covered by a National Pollution Discharge Elimination System (NPDES) permit or to storm water catch basins.
- d) The application of bacterial augmentation products to control algae, weed, or other aquatic plant growth or any application to vernal woodland pools, roadside ditches, or wetlands.

The application of bacterial augmentation products to surface waters of the state is authorized by this certification only under the following conditions:

1. The Notification of Intent must be submitted by one of the following entities:
 - (a) A person or entity who owns the property to be treated or who is the bottomland owner of the surface water body.
 - (b) A lake board established under Part 309, Inland Lake Improvements, of Act 451.
 - (c) A state or local government acting under authority of state law.
 - (d) A person who has written authorization to act on behalf of an entity in (a), (b), or (c).

2. The application of bacterial augmentation products shall be conducted according to all pertinent label instructions and additional restrictions identified in this certification, including:
 - Aqua-prep (Applied Biochemists) – maximum allowable dose is 0.124 gallons per acre foot
3. The application of the bacterial augmentation products shall be for the control of sludge/muck build-up, nutrients, and/or odor.
4. The bacterial augmentation product must appear on the Acceptable Michigan Bacterial Augmentation Products list available at www.michigan.gov/deq.
5. The entity submitting the Notification of Intent shall retain records identifying treatment locations, dates of treatment, bacterial augmentation product applicator(s) (if applicable), bacterial augmentation products used at each location, and any written authorization obtained to comply with item 1 for five years from date of treatment. These records shall be available for MDEQ inspection upon request.
6. In the event that any condition of this Certificate of Approval may not be met, the applicant shall immediately notify the District Supervisor responsible for the area where the treatment occurred. A list of MDEQ district boundaries, Water Bureau District Supervisors, and contact information is provided in attachment 1.
7. No treatment should occur during or prior to an anticipated rain event or any other period that may produce high water or a flood condition.
8. The issuance of this certification does not authorize violation of any federal, state or local laws or regulations, nor does it obviate the necessity of obtaining such permits, including any other MDEQ permits, or approvals from other units of government as may be required by law.

Upon acknowledgement that a complete Notification of Intent has been received, the applicant is authorized to commence bacterial augmentation product treatment in compliance with this certification. Acknowledgement of receipt of the Notification of Intent can be determined at www.michigan.gov/deq utilizing the MDEQ Site Map or by contacting Ms. Rosalie Mascho at 517-335-1180 or by e-mail at maschor@michigan.gov.

Issued this 11th day of April 2007, by the MDEQ and shall expire at midnight, December 31, 2007.

Diana Klemans, Chief
Surface Water Assessment Section
Water Bureau
